### INSTALLATION TOOLS

Circle Saw

Tape Measure

Steam Nail

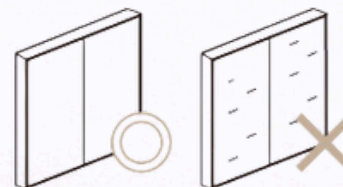

Nail Free Glue

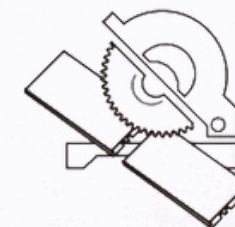

Coor Dinating Mouldings

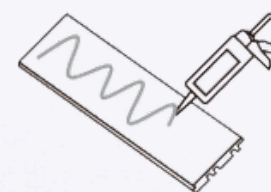

### INSTALLATION

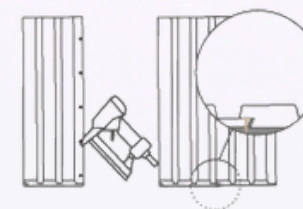

- 1 Prep-work with plaster board or plywood is recommended before the construction. Please remove wallpapers on the walls before the construction.

- 2 Circular saw can be used for cutting.

- 3 Apply nail free glue on the back of wall panel.

- 4 Wall panel can be installed in both horizontal and vertical direction. Apply air-tacker on the edge of the tongue to hide the pin-marks.

- 5 For corner, combine the two grooves.

- 6 Coordinating mouldings can be used for clean and nice.
